Abstract:

This article focuses on the possessing endowment that refers to the association that copes the endowment properties from the endower in order to be managed and developed based on its intentions (Act Number 41 of 2004 Article 1 Section 4). According to Imam Syafi’i, possessing endowment can be comprised by waqīf, or mawqūf ‘alā yah, or ḥākim. Dissimilarity with the constraints in the Government Regulations Number 28 of 1977, possessing endowment should be managed by individual or institution in contrast with the constraints that are mentioned by Imam Syafi’i. Evenly, Act Number 41 of 2004 Article 9 has mentioned possessing endowment may include: individuals, organizations, and institutions. This study examines that Nazhir Waqaf in Indonesia must be established referring to the view of Imam Syafi’i, Government Regulation Number 28 of 1977, and Act Number 41 of 2004 about The Endowment of Land Properties. Through literature review of Imam Syafi’i works and refers to Government Regulation Number 28 of 1977, Act Number 41 of 2004, and the Government Regulation Number 42 of 2006, this paper concluded that Nazhir Waqaf can be implemented referring to the view of Imam Syafi’i and also regulated under the Government Regulations Number 28 of 1977, Act Number 41 of 2004, and the Government Regulation Number 42 of 2006 about Endowment in Indonesia.

Keywords: Nāẓir, Waqf, Endowment, Land Property, Regulation.

A. INTRODUCTION

Etymologically, the term waqf means to stop or stand still. As for the terminological meaning, waqf means to restrain possessions, to gain benefits from it, without damaging the possession (Ash-Shan’ani 1991, III 167). According to the Government Regulation number 28 of 1977 on regarding the Endowment of Land Properties, article 1 section (1): A lawful action of an individual or an institution which separates a part of its land property possessions and institutionalizing it for good, for the sake of religious interests or other general deeds according to the Islamic principles (Ministry of Religion RI.1984. 91). On the basis of the above-mentioned section 1, it is indicated that the waqf property comprises of various types of goods that are not easily damaged during utilization. However, there are also ‘ulamā’ that regards waqf as limited to a plot of land.
The legal basis of waqf is not explicitly mentioned in Al-Quran however there is an implicit reference, as explained by Imam Shafi’i, Imam Malik and Imam Ahmad ibn Hanbal (Hasbi Ash-Shiddiqie: 1978. 179). There are several verses in Al-Quran that describes the essence of waqf, accordingly: Al An’am 38, Al Hajj 77, An Nahl 97, Ali Imran 92. (and Hadith of the Prophet PBUH) indicates that: “When a man dies, his deeds come to an end except for three things: Sadaqah Jariyah (ceaseless charity); a knowledge which is beneficial, or a virtuous descendant who prays for him (for the deceased).” (Muslim).

A waqf institution has only been recognized during the Islamic period. Previously, there was bahîra, sa’iba, waṣila and ham. As can be read in Al-Maidah: 103 “Allah has not appointed (such innovations as) bahîr or sa’iba or waṣila or ham. But those who disbelieve invent falsehood about Allah, and most of them do not reason.” (Al-Shafi’i 1990. IV. 54).

There are four elements of waqf, namely: waqīf, mawqūf ‘alayh, mawqūf bih and šīgah or pledge. In this case, the positioning of nāzîr endowment which has a responsibility to take care and to manage the endowment, is not discussed. On one hand, during that time the role of Nāzîr endowment was a direct responsibility of waqīf, mawqūf ‘alayh, or ḥā kim, as explained by Imam Shafi’i. On the other hand, in Hadith of Ibn Umar, the positioning of Nāzîr endowment is explicitly emphasized as follows: “It is not sinful for a Nāzîr endowment to consume a part of the endowment in a righteous manner and without the intention to possess it.” (Al-Majmu.n.d. XIV: 573).

The positioning of a Nāzîr endowment becomes more prominent when the location of the endowment is in a very strategic location with a high selling price. In some cases, this condition leads to the endowment property trading, organized by the Nāzîr endowment, which is clearly against the religious principle. Emphasizing the importance of a Nāzîr endowment, this research will examine the positioning of a Nāzîr endowment, according to Imam Shafi’i, Government Regulation number 28 of 1977, and Act number 41 of 2004.

The research method under consideration is the qualitative method, specifically a literature research or book survey. Main reference sources include: Kitâb b al-Umm, Government Regulation number 28 of 1977, and Act number 41 of 2004 regarding endowment in Indonesia. In addition, other book reference serves as a secondary source to enrich this study.

B. METHODS

This study is started by literature review of Imam Shafi’i works that relate to endowment appraisal and a review of Government Regulation number 28 of 1977 and Act number 41 of 2004 about the practice of endowment in Indonesia. The research method under consideration is the qualitative method, specifically a literature research or book survey. Main reference sources include: kitab al-Umm, Government Regulation number 28 of 1977, and Act number 41 of 2004 regarding endowment in Indonesia. In addition, other book reference serves as a secondary source to enrich this study.

C. RESULT AND DISCUSSIONS

1. Short History of Imam Shafi’i

Imam Shafi’i was born in the month of Rajab, 150 H (767 M), in the city of Guzah (Palestine). His father has already died when Shafi’i was still in his mom’s womb. The name ‘Shafi’i was taken from his father’s family “Ibn Idris ibn Abbas ibn Utsman ibn Shafi’i ibn Saib ibn Yaizd ibn Hasyim in Abdul
Muthalib ibn Abdi Manaf.” It means that Imam Shafi’i is part of the family tree of Nabi Muhammad SAW. This is rooted back to their great great grandfather, Abdi Al-Manaf the third grandfather of Nabi SAW. From his mother side, Shafi’i is the son of Fatimah ibnt Abdillah ibn Hasan ibn Husain ibn Abi Thalib.

Since he was 9 years old, Shafi’i is used to memorize the 30 juz of Al Quran, mastering the Arabic language from Banu Hudzail (in Makkah), including literature and Arabic poetry. Furthermore, Shafi’i studied fiqh from Imam Muslim ibn Khalid Al-Zanny, a teacher and a mufti in Makkah, during the time. He learned hadith from Imam Sufyan ibn Uyainah, a muhaddith in Makkah. Lastly, he studied Al Quran under the supervision of Imam Ismail ibn Qashtanthin, in Makkah.

His journey in attaining knowledge was accomplished by going to Madinah, in order to learn under the supervision of Imam Malik. In the age of 10, Shafi’i was able to memorize Kitāb Al-Muwaththa written by Imam Malik. When he arrived in Madinah, Imam Malik cheerfully welcomed him, because Imam Shafi’i has succeeded in memorizing his book. In addition, Imam Malik even gave money for Imam Shafi’i as a form of support of his good intention in continuing his study in Iraq. In that place, Shafi’i met Imam Muhammad ibn Hasan and Imam Abu Yusuf. Both ulama are close friends of Imam Abu Hanifah, a famous Imam Mazhhab Hanafi in Iraq. Shafi’i spent two of studying in Iraq before he continued his study to Persia, Yemen, Egypt and other cities.

The famous works of Imam Shafi’i are including; Al-Risā la, Al-Umm, Ḥikkitā f al-Ḥadīth, and al-Musnad. Imam Shafi’i died on Thursday, 29 Rajab of 204 H (820 M) in Egypt.

2. Waqf and Nāzir endowment

According to jumhūr al-‘ulamā’, a waqf needs to fulfil four requirements, including: waqīf (a person who gives waqf), mawqūf alayh (a person who receives waqf), mawqūf bih (the endowed property) and shighah or pledge (the statement). (Pradja, 1993: 27).

In the above-mentioned notion, the positioning of a Nāzir and a witness of waqf is not mentioned, although those two aspects are crucial in the implementation. It seems that the two additional elements are emphasized as an evidentiary function of waqf, not as a legitimate requirement of waqf.

Imam Shafi’i explained Nāzir endowment as follows: If there is a contract of waqf while the Nāzir is not mentioned, then the waqīf automatically serves as a Nāzir. This function can also be done by mawqūf alayh or ḥā kim, which sets a waqīf as a Nāzir endowment. (Imam Shafi’i: 1990. IV. 63)

As contained in Government Regulations number 28 of 1977, the elements of waqf comprise of: waqīf, a property/possession, waqf khairi, a pledge, Nāzir, a witness, and the officials which is responsible for the creation of the endowment pledge. In that case, based on Government Regulation there is a clear position of Nāzir endowment. The elements of waqf are described in detail, while the elements of waqf as established by jumhūr al-‘ulamā’ is not as detailed (Athoillah, 2015:217). This condition could lead to a misunderstanding in the Muslim community, especially in understanding the essence of waqf (Joseph, 2014). Based on the writer’s analysis, the explanation as contained in Government Regulation provides a more general interpretation which is more operational and accommodative with regard to the development of Indonesian Muslim community’s understanding of waqf. Consequently, there is an insignificant possibility that there will be a
misunderstanding regarding Nāẓīr endowment. However, the position of Nāẓīr endowment needs to be formally determined in order to avoid the practice of trading or abuse of waqf endowment, which could be the result of the increased value of waqf endowment or other factors (Cf, Athoillah, 2013). Other factors that are explained in Government Regulation number 28 of 1977 while have not been set by jumhūr al-‘ulamā’ are including these additions: waqf khairi, the witness and the officials which is responsible for the creation of the endowment pledge. One could say that the three elements serve an important role in waqf, hence, if one of those is missing, the implementation of waqf cannot be said as legitimate, according to the constitutional law and the Islamic religious law in Indonesia.

Nāẓīr endowment according to Government Regulation number 28 of 1977 is categorized into two groups, namely individual Nāẓīr and institutionalized Nāẓīr. An individual Nāẓīr needs to adhere to the following requirements:

a. a citizen of the Republic of Indonesia  
b. a Muslim  
c. be an adult  
d. be sound of mind  
e. not under an amnesty  
f. resident in an area where the endowment is located

For an institutionalized Nāẓīr, the requirements are:

a. a legal Indonesian firm and located in Indonesia  
b. a representative in a district where the plot of land (waqf) is located  
c. every Nāẓīr endowment is obliged to register to the Office of Religious Affairs to be legalized.

d. the number of Nāẓīr endowment in every district is determined by the Minister of Religious Affairs.

The requirements for a Nāẓīr according to article 219 of Compilation of Islamic Law (CIL/KHI [Kompilasi Hukum Islam]) as referred to in article 215 section (4), consist of individuals who needs to fulfil the following conditions: a citizen of Republic of Indonesia, a Muslim, an adult, possess physical and mental health, currently not under an amnesty and resides in an area where the endowment is located. If it is an institutionalized Nāẓīr, the following conditions are applied; a legal Indonesian firm and located in Indonesia and it needs to have a representative in a district where the plot of land (waqf) is located.

3. Obligations and Rights of Nāẓīr in Government Regulation number 28 of 1977

Obligations and rights of Nāẓīr is regulated in article 220 CIL and section 7 of PP No.28/1977, as follows:

a. Nāẓīr is obliged to arrange and be responsible of the waqf property and the execution of the waqf procedure on the basis of its objectives, as regulated by the Minister of Religious Affairs.

b. Nāẓīr is obliged to make a regular report to the local head Office of Religious Affairs (Kepala Kantor Urusan Agama) and a copy to the local District Council of Ulama (Majelis Ulama

Kecamatan) and the local Head of District (Camat), regarding all of its responsibilities, as indicated in section 16 (1).

c. The procedures of writing the report as mentioned in section (2) is executed according to the regulations of the Ministry of Religious Affairs.

Furthermore, in article 22 of CIL and article 8 Government Regulation number 28/1977 it is explained that Nāẓir has the right to acquire an income and supporting facilities in which the amount is determined based on the decency consideration as advised by the local Office of Religious Affairs (Kantor Urusan Agama). Emphasizing that both individual and institutionalized Nāẓir has a limited tenure both because of a hindrance of samawī or kasbi, it is important to have a clear regulation (Bayinah, 2012). Therefore, article 221 indicates that:

a. Nāẓir is stopped by the Head of local Office of Religious Affairs because of the following reasons: death, an appeal from the individual, inability to continue the obligation as a Nāẓir and committing a crime.

b. If there is a vacant position for a Nāẓir because of one of the reasons mentioned in section (1), the successor will be appointed by the Head of the Office of Religious Affairs or according to the local religious authority (Majelis Ulama Kecamatan).

c. If a Nāẓir has been demoted, as explained in section (1), he will automatically be replaced by one of his heir.

Article 13

(1) *Nāẓir* as referred to in Article 4, Article 7 and Article 11 shall administer, manage, develop, oversee and protect waqf properties.

(2) *Nāẓir* shall make periodic reports to the Minister and BWI about waqf activities referred to in paragraph (1).

(3) Further provisions concerning the procedures for making the report referred to in paragraph (1).

(4) is regulated by the Minister Regulation (Peraturan Menteri).

Article 14

(1) The tenure of *Nāẓir* is five (5) years and may be reappointed.

(2) The reappointment of *Nāẓir* referred to in paragraph (1) is conducted by BWI, if the person concerned has been carrying out a good job in the previous period in accordance with Islamic principles and legislation.

From the Government Regulations and Act above, nazhir is one indispensable element in the implementation of waqf (Assegaf and Sawarjuwono, 2013). The task of *Nāẓir* is to maintain prosperity, empowering, lease, and extract the benefits from waqf properties (Dahlan, Yaa’akub, Abdul Hamid and Pali, 2014). Because of the above-mentioned task, the ‘Ulama of Hanafiyah, Malikiyah and Shafi’ites agreed that he was entitled to a reward from the benefits of the waqf objects or wages that have been promised by waqf (Wahbah Zuhayli, 7694) or from the local government of the state treasury (bayt al-māl) (An-Nawawi al-Banteni, 174). Imam Nawawi in the book Nihayat Zaiyn mentioned that *Nāẓir* (which is not waqf) are entitled to wages that have been promised by waqf even though it is more than a standard wage minimum (An Nawawi al-Banteni, 273) If Nazhir is resigned of fired, the judge has the right to appoint the person that is ready to manage endowments. This person is paid from the endowment empowerment results. (Wahbah Zuhayli, al-Fiqh al-Islami Wa Adillatuhu, 7694)

According to Malikiyah, Nazhir is entitled to receive wages from the results of waqf:

“And for judges (government) may not make a wage from the endowment if Nazhir does not have anything”.

Legal thought is reflected in the Law of waqf which says that *Nāẓir* has the task:

a. to undertake administration of waqf property;

b. to manage and to develop the waqf property in accordance with the purpose, function, and purpose;

c. to supervise and to protect the property of the waqf;

d. to report execution of tasks to the Indonesian Waqf Board. (Law No. 41 of 2004 Section 11)

The article reinforces the special authority of Nazhir which has a stronger position than others, according to the rules (kaidah) (Zaenudin Ibrahim (Ibn Najm), al-Asybah wa al-Ndhair, p. 186.)

“Special authority has a stronger position rather than the general rule”.

In other methods Ibn Najm disclose:
"The judge does not have the jurisdiction over the existing endowments to manage waqf properties, as long as Nāẓir is present".

Nāẓir authority is also mentioned in Article 23 that, "In the case of waqīf do not specify the designation of waqf properties, Nāẓir can assign the designation of waqf property in accordance with the purpose and function of endowments." (Law No. 41 of 2004 Article 23, paragraph 2)

In respect of the wage of Nāẓir mentioned in Article 12, which reads, "In carrying out the tasks referred to in Article 11, Nāẓir can receive compensation from the net proceeds for the management and development of waqf properties which amount does not exceed 10% (ten percent)." (Law No. 41 2004, Article 11).

D. CONCLUSION

Based on the results of a comparative study of the positioning of Nāẓir endowments, some conclusions can be drawn as follows:

First, the waqf concept as stated by Imam Shafi'i were generally modest, it can be seen from the description of his theory of the elements of endowments, namely: waqīf, mawqūf 'ālayh, mawqūf bih, and the pledge. On the other hand, the provision of endowments established by Government Regulation number. 28 of 1977 is the development of the basic thoughts of Imam Shafi'i because it has undergone the process of adjusting to the conditions and demands of the people of Indonesia. In the PP it is determined that the elements of endowments consist of: waqīf, lands waqf properties, endowments khairi, pledge, Nāẓir, witnesses, and the Endowment Deed Official Pledge of Government Regulation. In Act number 41 of 2004 under Article 6 stated that the elements of waqf as follows: Waqīf, Nāẓir, Endowment properties, Endowment Pledge (ikrar), Appropriation of the waqf property and Endowment duration.

The gradual improvement regarding the positioning of Nāẓir endowment has been conducted by the Indonesian government in order to run the 1945 Constitution Article 29, paragraphs 1 and 2.

Secondly, regarding to Nāẓir endowment, according to Imam Shafi'i "when in the pledge it was not mentioned regarding who takes to role of a Nāẓir, then it can be concluded that the Nāẓir will be its waqīf, mawqūf 'ālayh or judges." The aim is to provide legal certainty about who will be the waqf property manager. This allows the waqf property to be maintained properly in accordance to the guidance of the Islamic principles and to meet the expectations to whom the property is beneficial.

Third, the position of Nāẓir endowment in Government Regulation number 28 of 1977 has been clearly mentioned in relation to the obligations, rights, and other matters relating to Nāẓir endowments. This is described in Article 6, paragraph 1 and paragraph 4 and includes individual Nāẓir and legal entities. Then in Article 7, the obligations and procedures for reporting Nāẓir endowment is described. Article 8 mentions regarding the rights of Nāẓir to acquire an income and facilities from the waqf property.

Fourth, endowments Nāẓir provisions in Act number 41 of 2004, in Article 1, paragraph 4 states that the party receiving Nāẓir is Waqf property of Waqīf to be managed and developed in accordance with it condition. Provisions on Nāẓir endowment mentioned in the articles: Article 9, Article 10, paragraph 1, 2 and 3. Article 11, Article 12 on the right Nāẓir on waqf property of (maximum) 10%. Article 13 Nāẓir obtain guidance from the Minister and the Indonesian Waqf Board. Article 14 on the
necessity Nāẓir endowments registered with the Ministry and the Waqf Board Indonesia (Article 1), and article 2 states that matters related Nāẓir endowment as contained in Articles 9, 10, 11, 12, and Article 13, is regulated by the Government.
